In a bit under 2 years, another 5 million puzzles solved on calcudoku.org, making a total of **30 million puzzles solved!**

To celebrate, not a 30×30 puzzle, but instead a **5 times 6×6** “interlocking” puzzle :-). It should be easier to solve than a 30×30 would have been...

You can submit the solution for **12** points on the site (click on “Books”, then on “Submit solutions”), use the puzzle code **30mil**.
